### MEZ J FLANGE

130-I

20GA

### MEZ J FLANGE

130-S

#### *What makes these flanges a Superior product:*

- Overall stiff and sturdy flange with a unique A frame construction
- I flange is designed with a deeper pocket for ease of insertion when using double wall construction.
- Extra sealant where the mechanical fastener is installed to seal the screw hole

#### *Same stiff and sturdy A frame flange profile with a smaller pocket.*

- This flange offers a more economical option

16GA

### MEZ CORNER

230-C

16GA

### MEZ TDC/F

STACKABLE  
CORNER

#### *What makes this corner a Superior product:*

- Mez corners fit in the flange very snug keeping the frame square and tight for easier assembly and installation.
- All Mez corners are engineered to have a unique stiff and offset design. The inner part of the corner forces the gasket material when two corners are pulled together by the carriage bolt towards the corner of the joining duct ensuring a tight seal so air does not escape corner areas.

MEZ GRIP CLEAT

320-MC

CLEAT  
INSTALL

MEZ CLEAT TOOL

FAST  
INSTALLS

*What makes this cleat a Superior product:*

- Exclusive knurled internal grip design
- Locking tabs
- This features allows the Mez cleat to create a super tight grip and secure fit like no other product on the market
